Briarcliff.

—Attend church to-morrow.

—Remove the snow and ice from your side walks.

—Sheriff Harper now has thirty-two boarders at his hotel.

—Our streets were again thronged with people and teams from the country, today.

—The threshing machine case occupied the attention of the municipal court again today.

—The Chicago express due here at 1:40 today was forty-five minutes behind time this afternoon.

—Select your costumes for the Concordia masquerade, which will take place on Tuesday evening, February 6th.

—The bone-player with the Uncle Tom's Cabin company, is the champion one of all who have appeared in that role in this city.

—The Good Templars order held a pleasant basket social in their hall last evening, which was well attended, with much social pleasure.

—The drives about the city are now in excellent condition, and the owners of fast horses are again struggling for the leadership in all the trials of speed.

—The rooms occupied by Clerk of the Court Baldwin, in the court house, are undergoing a thorough cleaning, repairing and calceining, and when completed will be as neat and comfortable as any in the building.

—Coal consumers, especially those who are in need of that kind of fuel, will be glad to hear that Messrs. Hooibrook & Atwood have reduced the price to \$7.25 per ton. The announcement is made officially by that firm today.

—City Treasurer J. M. Haselton paid into the county treasury this forenoon, the sum of \$9,272.75, the amount due as state tax and county school tax; leaving a balance due the county from the city of \$7,137.37, being the county tax.

—The board of supervisors at its last session, made appropriations amounting to the sum of \$26,792.65. To this amount must be added the sum of \$20,000, for court expenses and the ordinary claims against the county, which will make the expenses for the year 1883, something over \$46,000, besides the state tax, which for the year 1882 was \$37,711.31.

—County Treasurer Willis Miles, of this county, will go to Madison next week, for the purpose of paying the state treasurer the state tax due from this county, which amounts to \$38,574.10. Mr. Miles will be absent from the city about a week, wishing to visit relatives and friends in the neighborhood of the capital city.

—Mr. M. C. Smith and his son Fred, had a narrow escape from being burned out at Richland Center on Thursday morning. The large brick block, only a few yards from their store, owned by the Kronsouers, was destroyed, while theirs, a frame building, was saved. They paid six per cent for insurance, while the Kronsouers paid only one. This proves that fire takes singular freaks sometimes.

—By reference to our Chicago market report it will be seen that Mr. A. L. Brown, the manager of the Chicago board of trade rooms in Eldred's block, in this city, has severed his connection with the commission house of A. M. Wright & Co., and is now representing the commission house of Poole, Kent & Co., which is one of the largest and strongest firms in this country.

—The ice on the river being covered with snow to such an extent as to prevent skating, boys of all ages monopolize the side-walks, to this use for skating, which greatly annoys other people. The only way to prevent this nuisance to pedestrians is to thoroughly clear the snow and ice from the walks. Try the remedy once, and see if it will not work to good advantage.

—The question of who to select as street commissioner of this city, is just now agitating the aldermanic mind, there being so many men who are anxious and willing to accept the position, that it will be a very difficult matter for the council to make a selection. The question as to who will be the commissioner will wholly depend on the votes of the aldermen, which will not be made public before Monday night, if at that time. In the mean time the canvassing and button-holing will continue.

—A west side worker in fine metals, who is in the habit of using a jug of hot water for the purpose of keeping his feet warm while at work at his bench, placed his jug on the hot coal stove last evening, to heat the water, the jug being tightly corked. He, in company with several others took seats around the stove, waiting for the water to heat, and telling stories. Time flew a little faster than they anticipated, when the story was abruptly ended by Clark telling Johnny that there was no use talking further, a common earthen jug would not stand the same pressure as a steam boiler. The wreck was cleared away and work at the bench resumed, no one was hurt, that is, none will admit of any.

—This morning a young man, who is about as well posted in the show business as he is in patent medicines, stepped into the window of the show, to inquire what, and when the next show would be in the opera house. When he propounded his question, Fred happened to be busy with a customer, and did not make an immediate reply, but the young man stepped back to the show window, and noticed a large photograph of Lydia Pinkham, and answered his own interrogatory by saying, "O, I see; Lydia Pinkham! When will she be here?" Upon further examination, the young man pulled down his hat and went over to the postoffice to see a friend.

The Uncle Tom Performance.

There was a large audience at the opera house last night, to see a very poor performance of Uncle Tom's Cabin. Notwithstanding the drama is time-worn and muddled beyond all recognition, the people will still flock to hear it. It was entirely a new house last night, very few of the old theater-goers being present. The audience was largely made up of that class who cannot appreciate anything so artistic, or as admirably good as Esmeralda, Hazel Kirke, or Maggie Mitchell. It is a play for the masses who have no seventy-five cents or a dollar to spend for anything thoroughly choice, and that is the reason Uncle Tom draws well no matter where it is given. The play was badly cut last night, as it usually is by such companies. There were some special features sandwiched between the acts, which proved more acceptable to the audience than the play itself.
